## PROJECTS:

**Online Voting System Using Blockchain**

Blockchain technology where people can vote from anywhere if he/she possess a valid Citizenship of respective country where he/she wants to vote and to protect each and every vote to ensure that each and every vote matters.

- This project is to build a web application using blockchain technology where people can vote from anywhere if he/she possess a valid Citizenship of respective country where he/she wants to vote and protect each and every vote to ensure that each and every vote matters.
- Votes are stored in an immutable blockchain ledger, making it nearly impossible to tamper with results.
- Skills : **Blockchain,JavaScript, CSS,HTML,PHP**

## SKILLS:

**Programming languages:** JavaScript , Python, Java

**Softwares:** MS word, Excel (basics), MySQL

**Skills :** HTML,CSS
